

Ballistic Aircraft Company, LLC.

Making Classic Fiberglass Pattern Planes to the Highest Standards.

2017 PRICE LIST & TERMS

- Fuselages and fiberglass parts are made to order using high quality epoxy resin and are finished with high quality white epoxy based primer. This saves you finishing time and gets you in the air quicker.
- Wood packs include the majority of wood required for the design selected and contain contest sheeting, AAA balsa and plywood. Hardware is not included.
- Kits include when available; plans, instruction manuals, template sheets and building notes in electronic format. We are happy to answer your questions.
- Foam wing and stab cores are CNC cut using 1-pound virgin foam with the proper bead structure for R/C airplanes. Cores are cut for 1/16" sheeting and incorporate the ailerons and elevators.
- For a limited time (limit 1) a copy of Bob Noll's "Perfect Foam Wing Construction" DVD will be included with our full kits, including the wood pack. We recommend all of Bob's DVD's.
- Delivery time is quoted at time of order.
- Quality and customer service are number one for us. Why settle for less?
